ABOUT ME

I'm frontend developer with experience in creating SPA using React, Redux, TypeScript, SCSS. I'm planning to study Node.js, because in the future i see myself as a Full-stack developer. Usually i prefer to spend my leisure time on improving my English, studying new technologies and solve tasks on Codewars. Ready to consider project work and full-time employment. Also ready to consider moving.

EXPERIENCE

Freelance (2021 – Present)

front-end developer

Use next developer technologies: React/Redux / ReduxToolkit/RestApi/Axios/StoryBook/Formik /MaterialUI/SCSS, etc. Check the correctness of the code with Unit Tests and take Storybook for demonstration of individual modules of the application. Use TypeScript for best control of the code in work.
